

Tim Perry

***CEO, President, and Owner
Leadership Development Consultant
Faith-Based Counselor & Pastor
Veteran, United States Air Force***

Tim Perry comes to us with a very diverse background in culture, education, and experience in order to create 4 innovative organizations that focus on the care of emergency responders and their families.

He obtained his Bachelors in Aeronautics from the esteemed Embry-Riddle Aeronautical University with honors and his Masters in Leadership and Divinity (Counseling) at Rockbridge Seminary. After a distinguished 8-year career in the United States Air Force, he began his 25 year journey serving Fortune 5 corporations such as Motorola, Zurich Insurance, and ADP in critical leadership roles.

In 2009, while working for Motorola Public Safety Group, he began understanding the challenges associated with Police and Fire professionals across the country. He decided to begin creating an innovative way to provide mental health, spiritual counsel, and resiliency training programs that would impact their lives.

After ten years of riding with emergency responders, assisting in on-scene emergencies, providing post care counsel, and delivering resiliency training programs, Tim is living in his passion zone by impacting heroes behind the badges.
